ALL THE DETAILS

Choosing Your Tower

You can opt for one of our signature offerings, or customize something to perfectly suit your palate. Whatever your needs, our specialists will work with you to choose the best products for the style and size of your event. For custom towers, our specialists can provide a guided tasting of our cheese case at Murray's Cheese on Bleecker St., so you can select the tower of your dreams.

Quantities & Sizing

Our towers come in a variety of sizes that can feed an intimate gathering of 10 to 12 people or a large reception of 150+ guests. We recommend 2-3 ounces of cheese per person.

Cheese Accompaniments

We offer a full range of pairing options, from dried fruits to artisanal crackers to nuts and chutneys. Our team of experts is happy to advise on a delicious assortment for your cheese tower.

Cheese Accessories

We can provide you with the tools and accessories to cut and wrap the cheese wheels like a pro, for serving at your event or creating gifts for your guests to enjoy later. Cheese wires and harps, specialized knives, cheese paper, and tote bags can all be added on to round out your cheese tower experience.

Decorating Tips

While our cheeses are gorgeous on their own, they can easily be decorated to fit in beautifully at your event. We encourage you to work with your florist or planner to display the tower to your vision. You can start with some inspo from our experts:

- Tie ribbons around each wheel to add a colorful accent.
- Place fresh and dried fruit on and around the tower for an abundant look. The fruit can easily be incorporated into the spread for your guests once the tower is broken down.
- What's a wedding without flowers? Choose your favorite varieties of flowers or greenery and arrange them artistically across your tower.

Tasting Boxes

It's hard to choose a tower based on looks alone! Contact our specialists to request a sample box for one of our signature towers, and we'll send a taste of your chosen tower's cheeses straight to your door for a flat rate that includes shipping.

Administrative Fee

All cheese tower proposals will have a 20% administrative fee applied based on the total cost of the cheese tower plus any add-ons. This is to offset ancillary expenses associated with the cheese tower, including planning, administration, logistical coordination, and consultation.

Mobile Monger

Our Mobile Monger program will bring a cheese expert to your event to break down your tower into a gorgeous spread for your guests to enjoy. Please inquire for rates and availability.

Shipping & Delivery

We can arrange with your event space or planner to have your tower shipped or delivered. We recommend scheduling the tower to arrive at least three days prior to your wedding.

SLICE & SERVE LIKE A PRO

Once everyone has ooh-ed and ahh-ed over your gorgeous tower, it's time to eat. After your wheels have been broken down into smaller portions, our cut guide makes it easy to slice them into bite-size pieces for all your guests to enjoy.

For a soft, round wheel, cut into small, even wedges—just like you would a birthday cake!

A soft wedge with a bloomy rind just needs to be sliced from the side, then portioned into smaller pieces

A slab of hard cheese is easy to portion. Cut straight across and then in half again!

Slice the rind off the side of a firm wedge, then continue slicing to create easy-to-eat triangular portions.

A soft, washed rind cheese can be cut similarly to a bloomy wedge.

For some firm blues and aged cheeses, chunk along the natural breaks by wedging in your knife perpendicular to the cutting board. Or try slicing off the side for the perfect triangular bite.
